

Find the Right Bat for Your Kid

Your free baseball bat buying guide

START WITH HEIGHT + WEIGHT

Find height across the top and weight down the left. The number where they meet is a suggested bat length in inches.

HEIGHT IN INCHES • CHART VALUES = BAT LENGTH IN INCHES

Weight (lb)	36-40	41-45	46-48	49-52	53-56	57-60	61-64	65-68	69-72	73+
60 or less	26	27	28	29	29	-	-	-	-	-
61-70	27	27	28	29	30	30	-	-	-	-
71-80	-	28	28	29	30	30	31	-	-	-
81-90	-	28	29	29	30	30	31	32	-	-
91-100	-	28	29	30	30	31	31	32	-	-
101-110	-	29	29	30	30	31	31	32	-	-
111-120	-	29	29	30	30	31	31	32	-	-
121-130	-	29	29	30	30	31	32	33	33	-
131-140	-	29	29	30	31	31	32	33	33	-
141-150	-	-	29	30	31	31	32	33	33	-
151-160	-	-	29	30	31	31	32	33	33	33
161-170	-	-	-	31	31	31	32	33	33	34
171-180	-	-	-	-	-	32	33	33	34	34
Over 180	-	-	-	-	-	-	33	33	34	34

A starting guide, not a guaranteed fit. "-" means no recommendation is listed.

CHECK THE RULES FIRST

Ask your coach about approved certification, barrel size, drop and material for your child's division and tournaments. Canadian league requirements vary.

CHOOSE A WEIGHT THEY CAN CONTROL

Drop = labelled weight (oz) minus length (in). A 30-inch, 20-ounce bat is -10. At the same length, -5 is heavier than -10. Try suitable bats with a coach before buying.
